

FOLLOW YOUR NATURE

*FLYNT*

956 NOVA

"I believe life is not meant to be directed by form, tradition, status or the outside world. The ultimate joy is to live free and to follow your nature in everything that you do. That's why I created Flynt."

A handwritten signature in black ink, which appears to read 'Robert-Jan Sanders'. The signature is fluid and stylized, with a long horizontal stroke extending to the right.

ROBERT-JAN SANDERS,  
FOUNDER OF FLYNT

## OUR STORY

Flynt is the brainchild of Dutch entrepreneur Robert-Jan Sanders and is the culmination of his life's work in the motor yacht industry. The brand draws on the power of following your truth. Its aim is to inspire owners who focus less on status but chase the thrill of understated enjoyment.

In creating Flynt, Robert-Jan united global specialists in international superyacht design and manufacturing selecting only the highest quality materials and state-of-the-art technologies. As the first model in a new line of arresting boats, Flynt 956 Nova sets the benchmark high. By giving creative thought and freedom to every expression and detail, it raises the powerboat bar in every way.

## INSIDE-OUT DESIGN

Flynt's elegant design philosophy is to reverse the status quo in boat building by valuing user experience above all else. Every decision has purpose, every detail possesses artisanal quality.

The premise of Flynt's inside-out design philosophy originates from Robert-Jan's desire to build a boat without compromise. To create an interior and exterior that work with one another, rather than against. The signature Flynt sleek lines that define the exterior profile flow long and continuous without interruption, yet the creative focus begins with the owner experience. The interior is elevated by clear lines of sight, large windows, light-filled spaces and a convenient layout. Only then are the external shapes imagined. A Flynt works in harmony with itself and its owner, offering fluidity in design and function.

### GROUNDBREAKING DESIGN

"Robert-Jan's design vision breaks boundaries. As a result, Flynt is truly different from any other powerboat I know."

MARNIX J. HOEKSTRA & BART M. BOUWHUIS  
PARTNERS AND CO-CREATIVE DIRECTORS AT VRIPACK

### FOR LIGHT AND SPACIOUSNESS

Notable features include a full flush clear glass window in the front deck to fill the spacious interior cabin with natural light.

### ENDLESS LINES FROM EVERY ANGLE

Much like the infinite ocean and horizon beyond, Flynt's exterior design is characterised by elegant, continuous flowing lines.

### SIGNATURE PARTS

Flynt's hexagon signature pattern appears on multiple design elements, including the custom bow plate, spoiler grill and fuel damp outlet.

## MADE WITH THE BEST, BY THE BEST

Each Flynt is custom-built to order, handmade by artisans who are passionate about their work. Each design uses the finest materials selected for quality and longevity, moulded from composite polyester for lightweight durability.

The complex production process takes place in the Netherlands, the birthplace of Flynt. The use of high-quality materials inside and out ensures the boat's resilience and longevity. Every section is carefully constructed out of hand-polished stainless steel. The softest of leathers paired with oak accents create rounded surfaces that are smooth to the touch. Each Flynt is finished with custom-coloured Awlgrip metallic paint, before applying three neutral layers of lacquer.

### HANDMADE TO PERFECTION

Every boat that passes through Flynt's facilities is crafted by hand by the best specialists in their field.

## DON'T LET HER SIZE FOOL YOU

Flynt 956 Nova is the first of Flynt's models, possessing grace and style. Its compact size of just 9.56m (30ft) offers comfort and versatility. Small enough to be easily transported on a regular trailer or docked at a 10m long pier. Large enough for weekend cruising in a spacious and practical boat. Imagined by Flynt for the serious owner and strengthened by Dutch superyacht design studio Vripack's robust naval architecture, Flynt 956 Nova means business.

<b>LENGTH</b>	9.56 m
<b>BEAM</b>	3.00 m

## THRILLING DESIGN

Flynt 956 Nova stands apart from other boats in its category. Notable features include an extended sun deck and stainless steel bow plate and spoiler.

A convertible sun lounge area that invites deep relaxation. And an enlarged swim platform for waterside action. It even boasts a nifty handheld shower. The result is envious curb appeal, both when docked and underway. Powered by 350, 380 or 430 horsepower (with the choice of single or dual engines) Flynt delivers top speed performance. A deep-V planing hull tears across water making the boat efficient, rapid and easy to manoeuvre.

**SPACIOUS AND LIGHT**  
A flush clear glass sky-window draws natural light into the cabin.

**ENDLESS LINES**  
Made from teak effect wood the deck is spacious and stylish in design.

## SPACIOUS SEATING AREA

Soft underfoot yet built to last, the exterior deck space offers space, comfort and a chic aesthetic. Made from custom cast fibre with a teak effect, sumptuous edge-to-edge seating provides ample room for guests to sit or lounge, while bespoke fabrics offer a contemporary and convenient ambience.

**AN INVITING PLACE TO RELAX**  
Warm, integrated LED lighting illuminates the deck area in soft tones making it an inviting place to relax night and day.

#### **EASILY EXTENDABLE**

This cosy area extends by a considerable two metres by placing a third all-weather fabric cushion over the clear glass central motor compartment.

## COMFORTABLE SUNDECK

Catch the wind in your hair and the sun on your face from the life-affirming view point of the sundeck. Located aft, it doubles up as two inviting sun loungers or transforms into a full-on sunpad. Just a stone's throw from the water's edge, it is ideal for sun worshippers looking to drop anchor, kick back and make the most of life at sea with a cocktail in hand.

## THE ULTIMATE DRIVER'S SEAT

Flynt 956 Nova places the owner at the helm of an adrenaline-filled experience. Two custom, fully adjustable and rotatable Recaro sport seats ensure a life-affirming driving experience. The free-standing wood-lined panoramic windshield affords clear visibility and stretching vistas. The high-gloss, leather-lined and fully-digital Simrad dashboard twins with a leather, sports steering wheel complete with a mirror and polished 3D logo for the finishing touch.

**FINGERTIP CONTROL**  
A digital Simrad dashboard provides fingertip control in a powerboat environment.

Guarantee the warmest of welcomes in advance of your arrival with remotely-operated ambient lighting and electrical appliances.

OF SPACIOUSNESS  
AND LIGHT

## SPACIOUS CABIN

A luxurious double cabin makes overnight trips both appealing and convenient. A Hunker down after a long day at sea in the privacy and comfort of your own double cabin. Stargaze late into the night via the aptly placed skylights, then wake to the beauty of an early morning sunrise observed through the integrated windows. Perfectly finished in the highest quality materials in a custom colour palette.

### STYLISH MATERIALS

The spacious owner's cabin is made from a variety of tactile, natural-effect fabrics with a luxurious French oak finish.

### LIGHT AND SPACIOUS

The integrated hatch gives access to the outdoors while clear glass side windows and skylight dapple the interior with sunlight.

# TECHNICAL SPECIFICATIONS

Every Flynt is built to order and can be individualized to meet your specific needs. The 956 Nova is perfectly seaworthy at 32 ft. Moreover, her low weight and top speed of over 50 knots make her one of the fastest boats in her class. Your Flynt is standard full option.
